Montara 21 August 2009

Macondo 20 April 2010

IWCF Well Control Data Review

22 November 2023

What has happened since Montara and Macondo?

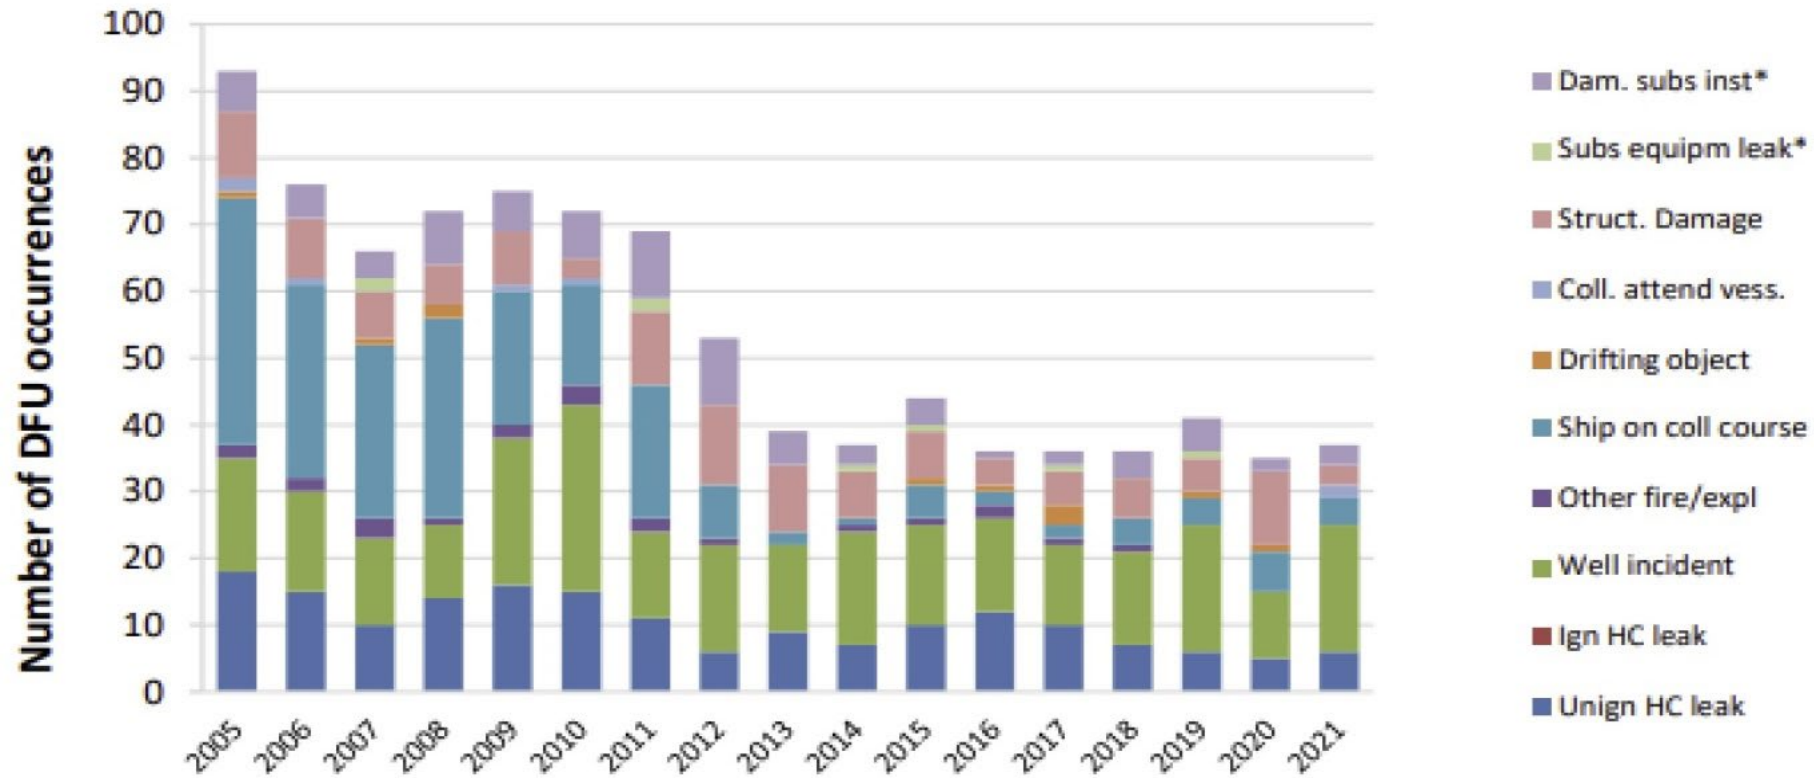

- IOGP 476
- Seadrill and Transocean actively involved in improving well control training
- Operators?
- Regulators?

Defined Hazard and Accident situations on NCS

Information courtesy of Norwegian PSA from RNNP 2022

Defined situations of hazards and accidents (DSHAs)

Overview of all DSHAs with major accident potential on all facilities*

IWCF Well Control Data Review

22 November 2023

At first glance no improvement in well control incident rate

- Severity appears to be lower in some geographical areas
- Data have been analysed so see how well control training can be improved to avoid incidents
